FBS Post Algebra 2 Summer Math 2020

This year, students will be using Khan Academy as a guide for summer math remediation. Each student will have an individual profile within the summer "class". This will enable the teacher to monitor the students' progress throughout the summer, make recommendations to individual students if necessary, and assess the students' learning at the end of the summer. **Students must join the Post-Algebra 2 Summer 2020 class to access the activities.**

To join the Post Algebra 2 Summer 2020 class, follow these instructions:

1. Sign up at **khanacademy.org** (or log in if you already have an account).
2. Visit **khanacademy.org/coaches** (or click the "**Coaches**" tab in your profile).
3. In the "**Join A Class**" field, enter the following class code: **B3JEF6D8**
4. Go to the "**Assignments**" tab to see the activities you are to complete.

(Note: You will need to email Mrs. Lant, lanth@fbschool.org, once you have completed these steps. She will accept your enrollment into the class. Your assignments may not show up prior to her receiving your email, so keep checking.)

The activities assigned are concepts that were covered in Algebra 2, so students may find it helpful to use class notes to complete them. Students may also click to access any of the hints, articles, or videos found on Khan Academy related to the activities.

Students may repeat any activities in order to improve their accuracy grade at any time after completion. In order to be adequately prepared to start the new year in Algebra 3 or Pre-Cal, it is recommended that students score a minimum of 80% on all activities.

If you have any problems signing up or accessing the assignments, you may email Mrs. Lant at lanth@fbschool.org. Please keep in mind that the summer work is meant to be completed independently by the student, so students should use the tools provided within Khan Academy (hints, videos, articles, etc.) for questions about content. Teachers will not provide concept-specific help through email over the summer.
